EDUCATION

The University of Texas at Dallas, **Computer Science, B.S. (Second Bachelors)**
May 2022

CERTIFICATES

The University of Michigan, *Coursera*
Introduction to HTML5 – August 2020
Introduction to CSS3 – Anticipated October 2020

EXPERIENCE

IEEE Forge, **Web Developer**, September '20 – Present

HTML, CSS, JavaScript, Figma

Building, designing, and deploying the IEEE UTD website and converting mockups into a usable web presence. Using Figma to develop wireframes, site maps, and layout for website designs. Adding various features to make the website user-friendly.

Gowani Pump Supply, **Web Developer**, October '20 – Present

HTML, CSS, Bootstrap, Git, GitHub

Building, designing, and maintaining the business website.

PROJECTS

My Maize, **WeHack 2020 Third Prize Winner**

HTML, CSS, JavaScript, Bootstrap, Figma

A cloud-based app that provides customers with the most efficient route in a grocery store. Used front-end development to present our idea of the app and used Figma to build the app layout.

What are you Grateful for, **Chrome Extension**, August '20 -Present

HTML, CSS, JavaScript

An extension that provides users an opportunity to write what they are grateful for and reflect on it throughout the day.

HOBBIES

Fashion and Travel Blogger, **Web Development**

Building a website that will allow users to purchase items from numerous clothing stores. Users will also have an option to sign up for text messages to receive daily discount deals.

Worked and maintained my site on Weebly with updates and implemented new features.
